

Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at all drug stores. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

The Tell Tale of Gray Hair

To be judged ten years older than you actually are is the tell-tale of gray, streaked hair, which detracts from a youthful appearance as much as a wrinkled face does.

Women everywhere, prefer the easy, natural, brownstone method that tints gray, streaked, faded or bleached hair.

Instantly, to any shade of brown or black. Without injury to hair or scalp. "Brownstone" imparts natural, lasting color that defies detection. Does not rub or wash off; and requires just a few moments to apply. Guaranteed absolutely harmless. "Brownstone" is everywhere in seal and recombinant "brownstone". Two sizes—50c and \$1.50 with easy, complete directions. Two colors—shading from "Golden to Medium Brown" and "Dark Brown to Black".

Special Free Trial Offer

For a free trial bottle of "Brownstone" send to The Union Chemical Co., 2200 Copple Bldg., Covington, Ky., enclosing 10c to pay postage, packing and war tax. Advertisement.

FAT PEOPLE GET THIN

Why be overweight when you might easily reduce 10 to 20 pounds, relieve your tired body by the KOREIN method? You look and feel younger. Get a small box of KOREIN tablets (pronounced KOREIN) as the original. Police doctors under medical supervision. KOREIN is sold by mail only. FREE by KOREIN CO., NE-48, Station X, New York, N. Y.

"IS WORTH ITS WEIGHT IN GOLD," HE DECLARES

Kansas City Man Says Tanlac Made a "Clean Sweep" of All His Troubles—Suffered Four Years.

"By the time I had finished my first bottle of Tanlac I began to straighten right up," said Al Smock, a well known machinist living at 2204 66th St., Kansas City, Mo., the other day. "For four years I was a prey to nervous indigestion. I never felt like eating and what little I forced down always gave me trouble. At times I was so dizzy headed that whenever I stooped over everything seemed to be

Are You Full of Life and Energy at 50? Still Going Strong—No?

Then Eat More Spinach and Carrots with Organic Iron to Help Give You Rich, Red Blood and Revitalize Your Wornout Exhausted Nerves.

YOU CANNOT BE STRONG AND WELL WITHOUT PLENTY OF IRON IN YOUR BLOOD. Without iron your blood is poor and therefore nothing you eat does you the proper amount of good—you do not get sufficient strength and energy out of it.

Thousands of people suffer from iron-starvation of the blood and are weak, nervous and ailing all the while WITHOUT SUSPECTING THE REAL CAUSE OF THEIR TROUBLE.

THERE ARE 30,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

If you are not willing to eat the peels of fruits and vegetables and the husks of grain so as to get sufficient quantity of organic iron for your blood, as nature intended you should do, then you should eat plenty of iron-containing foods like spinach, carrots and baked apples and reinforce them from time to time with a little organic iron, which you can obtain from your druggist under the name of Nuxated Iron. Nuxated Iron represents organic iron in such a highly concentrated form that one dose of it is estimated to be approximately equivalent (in organic iron content) to eating half a quart of spinach, one quart of green vegetables or four large apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially predigested and ready for almost immediate absorption and assimilation by the blood while metallic iron is iron just as it comes from the action of various acids on small pieces of iron.

To prove to yourself what Nuxated Iron will do for you, get a bottle of Nuxated Iron for your blood and make a "blood count" of your red blood corpuscles. Then take Nuxated Iron for a month and have a new "blood count" made and see how your red blood corpuscles have increased and how much purer and richer your blood has become; how much stronger and better you feel; also note how the color has come back to your cheeks, and what a difference it has made in your nerves.

Over 700,000 people annually are using Nuxated Iron. If you are not feeling quite up to the mark telephone for a package today. Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results. At all druggists.

Notice of Annual Meeting. THE KANSAS HOTEL CO. The annual meeting of the shareholders of this company, for the election of director and the transaction of such other business as may come before the meeting, will be held at 2 P. M., Tuesday, January 11, 1921, in the Grand Room of The State Hotel, Topeka, Kansas.

FRANK P. MacLENNAN, President. GEO. P. McENTIRE, Secretary.

SAYS CONGRESS IS LOPSIDED

Thinks of Producers Alone, Forgetting Eighty Millions of Consumers.

Washington, Jan. 6.—Congress at this time is apt to "run lopsided" in the interest of producers without giving heed to the eighty million people dependent on them for food, A. Reynolds, of Crawfordville, Ind., told the house agriculture committee in opposing legislation designed to put an extra tax on speculative grain trading.

"That is the great danger now," said Mr. Reynolds, who described himself as a country grain dealer. "It is unwise to try and overcome one fault by making a greater one. All of you will wear halos if you can frame a law to get rid of gambling without distributing legitimate trading."

The witness was sharply questioned by Rep. Tinner, Republican Kansas, who wanted to know if the farmer derived any benefit from the fact that the wheat crop was sold for a profit. Mr. Reynolds said he could not answer that. He said the situation what he regarded as dangerous provisions of regulation measures, the witness said they might open a door for somebody to step in and attempt to buy up the visible supply.

"It might be best," he added, "to buy and hold the crop and stop the bread supply. We can work more safely I think under some untied experiment, suggested in these chaotic times."

TO MAKE ROAD MATERIALS

Attorney General Urges State to Manufacture Brick and Cement.

The state will be asked to build brick and other road making materials under a bill being prepared by Richard J. Hopkins, attorney general. Hopkins asserts that the recent highway amendment to the state constitution is sufficiently broad to permit the state to manufacture in manufacture of road making materials.

Recently proposals have been made that the state amend its constitution to permit use of convict labor in a state owned brick and cement plant. These materials would be sold to the various counties for use in highway projects. Hopkins is confident the state can make its own brick and cement under the new constitutional amendment.

ONLY FEW ARE FOREIGN BORN.

Ninety-Four Per Cent of Women in Kansas Industries Were Born in America.

Of all women in Kansas industries, 94 per cent are American born, according to the report of the co-operative survey by the women's bureau of the United States department of labor and the Kansas industrial welfare commission. This condition is contrasted by Miss Linda Brasette, secretary of the Kansas commission with industrial centers in other states where woman workers must ordinarily speak a foreign language to be understood.

The investigation covered 230 establishments, employing 6,179 women in thirty-one cities and towns of the state. Of this number 59.7 per cent were native born, white, and 5.7 per cent were colored. The colored workers were engaged principally in the packing industry, although there was a considerable number in restaurants and laundries. The small percentage of foreign born women workers was found mostly in the meat packing plants.

DECREASE IN ACCIDENTS.

Industrial Plants Report Twenty Per Cent Loss for 1920.

A decrease of approximately 20 per cent in industrial accidents in Kansas is indicated in the report for 1920 issued today by John H. Crawford, state labor commissioner. The report shows 113 fatal and 7,099 nonfatal accidents for the year as compared to 120 fatal and 7,132 nonfatal in 1919. Crawford estimates 75 per cent of the actual accidents were reported last year as compared to 60 per cent in 1919. On this basis the number of accidents decreased fully 20 per cent, which Crawford attributes to more stringent enforcement of the safety laws thru systematic factory and mine inspection.

"The department now has six mine inspectors and two factory inspectors," Crawford said. "I shall ask the legislature for an additional factory inspector. The additional inspector, by saving even one accident or death would more than justify the appropriation for his salary."

The most hazardous occupation in 1920, according to the report, was railroad work. Accidents numbered 1,769. Industries proved next most dangerous with 1,242 accidents. The number of accidents in other occupations were: mining, 873; foundries, 863; salt industries, 442; meat packing, 235; cement plants, 232; gas, water and electric power plants, 235; flour and cereal mills, 194; lead and zinc smelting and refining, 115; planing mills, 47; and miscellaneous, 201.

The total of accidents in 1920 causing amputation and other permanent disability was 167.

In December, 1920, fifteen fatal and 687 non-fatal accidents were reported. Five deaths were reported in the oil industries, four in laundries, three from railroads and one each from coal mining, building construction and power works.

ASK MORE FOR CLERK HIRE.

Shawnee County Officers to Request Greater Appropriations This Year.

County officers are preparing to ask the coming legislature for a greater appropriation for clerk hire. It is claimed that owing to the low wage paid deputies it is almost impossible to keep a good clerk any length of time.

Some of the work in the county offices is so extremely technical that it cannot be properly handled by any clerk whom the officers may chance to hire; hence it is inadvisable to keep changing help, it is pointed out. Several valuable deputies have quit the Shawnee county offices in the past year because they can get more money at other jobs.

WARM WEATHER IN KANSAS

Spring-Like Temperatures Were General Over State All Last Week—Wheat in Splendid Condition in Almost Every Section.

(By S. D. Flora, Meteorologist.)

Mild springlike weather was general over Kansas all week, according to the reports of 100 correspondents of the weather bureau, which show that night temperatures were scarcely below freezing while the afternoons were sunny and warm enough to thaw the upper surface of the ground everywhere. Only a few scattered flurries of snow fell and there was no measurable moisture except very light rains reported on December 31 in Chase and Wilson counties. The snow covering in the northwestern counties disappeared early in the week. West is still looking fine in almost every section, with apparently nothing to be desired to improve its condition. It shows no damaging effects of the cold weather Christmas week, except in some of the south-central counties, where the tops have been killed, or in a very few localities where it was frozen to the ground. As a rule it stood well before winter sets in and has matted down on the ground and presents a fine green color. Generally it is turning good pasture.

Stock is faring well in all sections of the state with an abundance of feed in sight. The ground has frozen to a depth of two to four inches, while the snow has fallen blowing, while the afternoon thaws made the fields muddy for gathering corn this week. Farmers are busy with cleaning up odds and ends of winter work, husking and shelling corn, and, in the south-central and southwestern counties, in topping and threshing grain sorghums.

COOLDS

"Pape's Cold Compound" is Quickest Relief Known

Don't stay stuffed-up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three times are taken usually breaks up a cold and ends all grippe misery.

The first dose opens clogged-up nostrils and air passages of head; stops

nose running; relieves headache, dullness, feverishness, sneezing.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Tastes nice. Contains no quinine. Insist upon Pape's.

FORM A CITIZENS' CLUB

Topeka Organize to Select a Candidate for Mayor.

The "Topeka Citizens' club" was organized at a meeting of about fifty persons in the second division court room, Wednesday night, for the purpose of selecting a candidate for mayor. T. D. Humphreys was elected chairman and Harry Wright secretary.

It was decided to name an organization committee of twelve, consisting of one man and one woman from each ward in the city, to organize every precinct. The men selected were:

First, Hal Williams. Second, James Gibbons. Third, Dr. W. E. Lindsay. Fourth, Ed Rooney. Fifth, Charles Lytle. Sixth, J. E. Wilson.

The women will be named by the women's clubs who will be invited to another meeting to be held next Wednesday night at 8 o'clock, at the same place, at which times candidates for mayor will probably be selected.

Short talks by members of the new club indicated that it intends to select and back for mayor some man who has the right combination of business ability, common sense, backbone and fearlessness, and who will be a change for the better in the administrative and police affairs of the city.

SCIENTIFIC CARE FOR PLANTS.

Home and Garden Club Is Formed by Topekan.

House plants received in Topeka homes for Christmas in 1920 will be cared for in a more scientific way and therefore will be longer lived, at least the homes of those who attend the lectures on the care of house plants being given at Rosary, 118 East Seventh street.

The plan was made by the Woman's Farm and Garden club and the Oakland Forestry club, members of which formed the Home and Garden club, to meet twice a month at the Rosary to discuss the care of household plants. Miss Mabel Foltz was elected president of the club at the first meeting, held Tuesday night. The next meeting will be held on January 18 and will concern the care of cyclamens and begonias.

FRATERNAL UNION OFFICERS.

Capital City Assembly No. 516 Holds Initiation and Installation.

Capital City Assembly No. 516 of the Equitable Fraternal Union held initiation and installation ceremonies for ten new members and the officers of the new year at the regular meeting of the lodge Tuesday evening.

The new officers are: George I. Brown, president; Mrs. A. P. Crooker, vice president; Mrs. Florence Ruffner, vice president; Mrs. Ella Sipes, secretary and treasurer; William Lindaburg, warden; Laura Brown, inside guard; R. H. Davis, outside guard; A. P. Crooker is past president; Mrs. Clara Brown, Herbert Rogers and Cecil Crooker are the trustees.

C. L. Adams, state manager for the order, was present at the meeting, which was followed by an oyster supper.

25 YEARS AGO IN TOPEKA

From the Columns of THE TOPEKA STATE JOURNAL

January 6, 1906.

Police Commissioner Charlie Holliday is writing a book. Charlie has not become an author from any arid motive of gain, but writes wholly from inspiration. The book is called "At the Tomb of the Emperor," and is laid in Europe. For four years Mr. Holliday lived at Stuttgart, and attended a university. He had time while there to look around a little and he kept tabs on the German emperor. While in Germany he attended the last grand opera conducted by the great Wagner himself. The emperor was present and Mr. Holliday tells some interesting things the German ruler did.

Mr. Hal Hazlett has returned to medical school at St. Louis.

Mr. and Mrs. E. H. Crosby and children are expected home tomorrow from St. Louis. They will be accompanied by Mr. Crosby's sister, Miss Adell Deickreide, who will visit them.

Mrs. M. C. West and Miss Dugan have been selected to teach in the city schools. Mrs. West will be assigned to Lincoln and Miss Dugan to Quincy.

TOPEKA ARTIST IS RECOGNIZED.

Paintings of Kenneth Adams Gain Fame in New York.

A Topeka artist who has been recognized in a rather unusual manner is Kenneth Adams, who is painting in his studio at Woodstock, N. Y. He has been painting only a few years, having taken his early training under George Stone of Topeka. He has studied in the Art Students league in New York and in the Chicago Art Institute, and has achieved remarkable success at the age of twenty-three.
